Hi Kenny,

Thanks for your call this afternoon. Please see the attached letter from Jerry Saunders. Please consider this the definitive communication from EPA regarding our understanding of the situation, as well as follow up actions to take.

It's important to keep in mind that the various sections, or departments, of EPA (e.g. Drinking Water Section, Enforcement Division, and Tribal Affairs Office) work together on tribal matters. As such, we will determine one point of contact for you.

In the meantime, please continue to take the necessary source water and distribution samples, as well as residual readings, as noted in the attached letter.

Please reach out if you have additional questions.

Thank you,
Meaghan

Subject: Cochiti well 2 follow up

Hi Kenny,

As discussed, I am forwarding a letter from EPA Region 6 that is going to be mailed out today regarding the Cochiti Lake Water System.

Thank you for providing us the contacts at the Cochiti Pueblo leadership and CCDC, so that we can keep everyone in the loop.

We really appreciate your follow up and communication on getting this issue addressed.

Please continue to keep us informed and please reach out to us if you have questions.

Thank you.

Kim Ngo
Section Chief
Drinking Water Section
